GAMMON INFRASTRUCTURE PROJECTS LIMITED

- 5 In respect of the following projects there are legal issues, arbitration proceedings or negotiations with the grantor for which the Management is taking necessary steps to resolve the matters. These issues are commonly encountered in the Infrastructure business and the management is confident of a favourable resolution in due course. The auditors in their review report have made an emphasis of matter on these matters.
- (a) Bridge project at Cochin - the Greater Cochin Development Authority has sought to end the toll collection by unilaterally sealing the toll booth. The subsidiary has initiated arbitration / settlement. The Company has also parallelly filed a writ in the matter before the Hon. Kerala High Court for specific performance. The exposure of the Company is Rs. 2,515.87 lakhs (funded and non-funded).
- (b) Hydro power project at Himachal Pradesh - the project is stalled due to local agitation relating to environment issues. The matter with state Government is under active negotiation to restart the project or reimburse the costs incurred. The exposure of the company is Rs. 7,136.94 lakhs.
- (c) Container terminal at Mumbai - where the group is a Joint Venture (JV) partner, the MbPT has permitted the JV on a trial basis to operate the Ro-Ro operations on a revenue share, which is generating revenue for the JV. The JV has handled around 60 vessels till date. However the project is delayed due to non-fulfillment of certain conditions by the Mumbai Port Trust. This has resulted in the company incurring losses and default in repayment of debt obligation. The said JV's facility have become NPA. The matter with the MBPT is under active discussions for resolving the outstanding issues. The management is also negotiating with the bankers for re-scheduling the loans. The exposure of the Company in the JV is Rs. 12,775.62 lakhs (funded and non-funded).
- (d) Tolling bridge project in Andhra Pradesh - The current monthly toll collections is not sufficient to repay the monthly interest on bank borrowings. The Company is required to pay the initial loan with the additional loan in 168 monthly installments with effect from April 2016. The term loan account of the Company has been classified as a Non Performing Asset. The management is exploring opportunities to replace the high cost debts with low cost debts. To achieve the above objective, the SPV has engaged rating agencies to assist the it to make a private placement of low cost bonds. In addition to the above, as per the Concession Agreement with Andhra Pradesh Road Development Corporation (APRDC), the SPV is eligible to receive Revenue Shortfall Loan at subsidised rate of interest from the APRDC. The SPV is in the process of making necessary applications with APRDC. The management is strongly of the view that once APRDC satisfies its obligations under the terms of the Concession Agreement and other factors stated above, the financial viability of the SPV is expected to improve. In view of the above, the financial statements have been prepared on a going concern basis and accordingly, no impairment of assets was required. The exposure of the Company in the SPV is Rs. 29,328.72. lakhs (funded and non-funded).
- 6 The Company has divested some of its subsidiaries for a cash surplus which reduced the current liability and current asset mis-match. The present mismatch are dependent upon satisfaction of further condition precedents to effect the sale of balance SPV's as detailed in note 2 above. Based on detailed evaluation of the current situation, plans formulated and active discussions underway with various stakeholders, management is confident that the going concern assumption and the carrying values of the assets and liabilities in these audited financial results are appropriate. Accordingly the accompanying financial results do not include any adjustments that may result from these uncertainties.
- 7 The Company's operations constitutes a single segment namely "Infrastructure Development" as per Accounting Standard AS' - 17 Segment Reporting. Further, the Company's operations are within single geographical segment which is India.
- 8 The current audited period is for eighteen months from October 1, 2014 to March 31, 2016 while in the previous period the Company had closed its accounts for nine months ended September 30, 2014. Therefore the audited full period results are strictly not comparable. The figures for the quarter ended March 2016 are derived from the audited figures of eighteen months period ended March 31, 2016 and the published year to date figures upto December 31, 2015 which were subjected to limited review by the statutory auditors.
- 9 Figures for previous periods have been regrouped / reclassified wherever necessary to conform to the current quarters presentation.

excess remuneration from the managerial personnel and to that extent the profit for the period will be higher by an amount of Rs. 204.49 lacs. 5. Further, read with paragraph 1 above, we report that the figures for the quarter ended March 31, 2016 represent the derived figures between the audited figures in respect of the financial period ended March 31, 2016 and the published year-to-date figures up to December 31, 2015, being the date of the end of the fifth quarter of the current financial period, which were subjected to a limited review as stated in paragraph 1 above, as required under Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

Emphasis of Matters

6. Without qualifying our report, we draw attention to the following matters:
 - a) Note 5(a) of the Statement, regarding unilateral termination and closure of Concessions in a bridge project, which is subject to pending litigations/arbitrations at various forums, which may impact the carrying values of investments and loans and advances given to a subsidiary. The Company's exposure towards the said project (funded and non-funded) is Rs. 2,515.87 lacs. Pending conclusion on these legal matters, no adjustments have been made in these financial results.
 - b) Note 5(b) of the Statement, in relation to intention to exit one of the hydro power projects at Himachal Pradesh and seeking a claim of an amount against the amount spent on the project. The Company's subsidiary has cited reasons for non-continuance on account of reasons beyond its control. The subsidiary is negotiating with its client for an amicable settlement on beneficial terms and is also exploring legal steps. The Company's exposure towards the said project includes investment and loans and advances of Rs. 7,136.94 lacs. Pending conclusion between the parties, no adjustments have been made in these financial results.
 - c) Note 5(c) of the Statement in connection with an amount invested (including deposits and advances given) in a joint venture of Rs. 12,775.62 lacs (funded and non-funded). The only project of the JV Company has been delayed resulting in the company incurring losses and

- consequent default in repayment of its debt obligation culminating in the bank facility being designated as NPA. Considering the MbPT permission to allow RORO operations on a trial basis and based on the management assessment and plans to address these issues, no provision is considered necessary against the aforesaid amounts.
- d) Note 5(d) , in respect of a tolling bridge project in Andhra Pradesh where the monthly toll collections are not sufficient to pay the interest and the resultant defaults in the loan repayment resulting in the facility being marked NPA, considering the steps the management proposes to take to replace the high cost debts and the terms of the concession agreement in which the Company is eligible for revenue shortfall loans, no provisions is considered necessary against the Company's exposure of Rs. 29,328.72 lacs.
- e) Note 6 of the Statement wherein the Company has stated that as of that date the Company's current liabilities exceeded current assets despite the sale of some of the SPVs. These conditions, along with other matters as set forth in the said Note of the Statement, indicate the existence of an uncertainty as to timing and realization of cash flow.

Attention is invited to note 6 to the financial results relating to the excess managerial remuneration paid of Rs. 204.49 lacs for the previous period. The Company had made an application for waiver of refund of the managerial remuneration to the Ministry of Corporate Affairs, which has rejected by the Ministry. The Company however has sought to make an application for review of the rejection and therefore no steps for recovery has been initiated and no effects have been given for the same. For the current period also there is an excess remuneration paid of Rs. 183.96 lacs to the Managing Director which is in excess of the limits specified w/s 197 of the Companies act 2013 read with Schedule V to the Companies Act. - 7 In respect of the following projects there are legal issues, arbitration proceedings or negotiations with the grantor for which the Management is taking necessary steps to resolve the matters. These issues are commonly encountered in the Infrastructure business and the management is confident of a favourable resolution in due course. The auditors in their audit report on the consolidated financial statements for the eighteen month period ended March 31, 2016 have made an emphasis of matter on these matters.

(a) Bridge project at Cochin - the Greater Cochin Development Authority has sought to end the toll collection by unilaterally sealing the toll booth. The subsidiary has initiated arbitration / settlement. The Company has also parallelly filed a writ in the matter before the Hon. Kerala High Court for specific performance. The exposure of the Group is Rs.2629.74 lakhs (funded and non-funded).

(b) Hydro power project at Himachal Pradesh - the project is stalled due to local agitation relating to environment issues. The matter with state Government is under active negotiation to restart the project or reimburse the costs incurred. The exposure of the group is Rs. 6784.94 lakhs.

(c) Container terminal at Mumbai - where the group is a Joint Venture (JV) partner, The MbPT has permitted the JV on a trial basis to operate the Ro-Ro operations on a revenue share, which is generating revenue for the JV. The JV has handled around 60 vessels till date. However, The project is delayed due to non-fulfillment of certain conditions by the Mumbai Port Trust. This has resulted in the company incurring losses and default in repayment of debt obligation. The said JV's facility have become NPA. The matter with the MBPT is under active discussions for resolving the outstanding issues. The management is also negotiating with the bankers for re-scheduling the loans. The exposure of the group in the JV is Rs. 35614.29 lakhs (funded and non-funded).

(d) Tolling bridge project in Andhra Pradesh - The current monthly toll collections is not sufficient to repay the monthly interest on bank borrowings. The Company is required to pay the initial loan with the additional loan in 168 monthly installments with effect from April 2016. The term loan account of the Company has been classified as a Non Performing Asset. The management is exploring opportunities to replace the high cost debts with low cost debts. To achieve the above objective, the SPV has engaged rating agencies to assist it to make a private placement of low cost bonds. In addition to the above, as per the Concession Agreement with Andhra Pradesh Road Development Corporation (APRDC), the SPV is eligible to receive Revenue Shortfall Loan at subsidised rate of interest from the APRDC. The SPV is in the process of making necessary applications with APRDC. The management is strongly of the view that once APRDC satisfies its obligations under the terms of the Concession Agreement and other factors stated above, the financial viability of the SPV is expected to improve. In view of the above, the financial statements have been prepared on a going concern basis and accordingly, no impairment of assets was required. The exposure of the Company in the SPV is Rs. 106379.58 lakhs (funded and non-funded).

- 8 The Company has divested some of its subsidiaries for a cash surplus which has reduced its current liability and current asset mis-match. The present mismatch are dependent upon satisfaction of further condition precedents to effect the sale of balance SPV's as detailed in note 3 of the financial statements. Based on detailed evaluation of the current situation, plans formulated and active discussions underway with various stakeholders, management is confident that the going concern assumption and the carrying values of the assets and liabilities in these audited financial results are appropriate. Accordingly the accompanying financial results do not include any adjustments that may result from these uncertainties.

- 9 The Company's operations constitutes a single segment namely "Infrastructure Development" as per Accounting Standard AS - 17 Segment Reporting. Further, the Company's operations are within single geographical segment which is India.

- 10 The current audited period is for eighteen months from October 1, 2014 to March 31, 2016 while in the previous period the Company had closed its accounts for nine months ended September 30, 2014. Therefore the audited full period results are strictly not comparable. The figures for the quarter ended March 2016 are derived from the audited figures of eighteen months period ended March 31, 2016 and the published year to date figures upto December 31, 2015 which were not subjected to any limited review or audit by the statutory auditors.

- 11 Figures for previous periods have been regrouped / reclassified wherever necessary to conform to the current quarters presentation.

Basis of Qualified Opinion

- 5. *Attention is invited to note 6 of the statement of consolidated financial results relating to the excess managerial remuneration paid of Rs. 204.49 lacs for the previous period. The Company had made an application for waiver of refund of the managerial remuneration to the Ministry of Corporate Affairs, which has rejected by the Ministry. The Company however has sought to make an application for review of the rejection and therefore no steps for recovery has been initiated and no effects have been given for the same. If the Company's application is not accepted then the company would be required to recover the excess remuneration from the managerial personnel and to that extent the profit for the period will be higher by an amount of Rs. 204.49 lacs. In respect of the current period also there is an excess remuneration paid of Rs. 183.96 lacs to the Managing Director, which is in excess of the limits, specified u/s 197 of the Companies Act 2013 read with Schedule V to the Companies Act. The Company proposes to make an application for the waiver for recovery for the same to the ministry of corporate affairs. Subject to the outcome of the application we are unable to ascertain the impact on profits on this account for the eighteen months period ended 31st March 2016.*

Emphasis of Matter

7. Without qualifying our review conclusion, we draw attention to the following matters which were also referred to in our audit report issued for the nine months period ended September 30, 2014:
- a) Note 7(a) of the Statement, regarding unilateral termination and closure of Concessions in a bridge project, which is subject to pending litigations/arbitrations at various forums, which may impact the carrying values of investments and loans and advances given to a subsidiary. The Group exposure towards the said project (funded and non-funded) is Rs. 2,629.74 lacs. Pending conclusion on these legal matters, no adjustments have been made in these financial results.
 - b) Note 7(b) of the Statement, in relation to intention to exit one of the hydro power projects at Himachal Pradesh and seeking a claim of an amount against the amount spent on the project. The Company's subsidiary has cited reasons for non-continuance on account of reasons beyond its control. The subsidiary is negotiating with its client for an amicable settlement on beneficial terms. The group exposure towards the said project is Rs. 6,784.94 lacs. Pending conclusion between the parties, no adjustments have been made in these financial results.
 - c) Note 7(c) of the Statement, in connection with container terminal project in Mumbai where the group exposure is an amount of Rs. 35,614.29 lakhs (funded and non-funded). The only project of the JV Company has been delayed resulting in the company incurring losses and consequent default in repayment of its debt obligation culminating in the bank facility being designated as NPA. basis and based on the management assessment and plans to address these issues, no provision is considered necessary against the aforesaid amounts.

- d) Note 7(d), in respect of a tolling bridge project in Andhra Pradesh, where the monthly toll collections are not sufficient to pay the interest and the resultant defaults in the loan repayment resulting in the facility being marked NPA, considering the steps the management proposes to take to replace the high cost debts and the terms of the concession agreement in which the Company is eligible for revenue shortfall loans , no provision is considered necessary against the group exposure of Rs. 1,06,379.58 lacs.
- e) Note 8 of the Statement, wherein the Company has stated that as of that date the Company's current liabilities exceeded current assets despite the sale of some of the SPVs. These conditions, along with other matters as set forth in the said Note of the Statement, indicate the existence of an uncertainty as to timing and realization of cash flow.
